💡 https://uat.firstcentralcreditbureau.com/firstcentralrestv2 /login

Headers

content-type

`application/json`

Body

`username, password`

Request: Login sample

```
{
"username":"demo",
"password":"demo@123"
}
```

> Replace the test credentials with the live one sent to you from the firstCentral team.

Sample Response: Login

```
[

https://uat.firstcentralcreditbureau.com/firstcentralrestv2 `/ValidateTicket`

Request: Validate Ticket

```
{
"DataTicket":"eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJzdWJzY3JpYmVyaWQiOiIyNyIsInN1Ym5hbWUiOiJGaXJzdENlbnRyYWwgRGF0YSIsInVzZX

}
```

```
[
{
"IsTicketValidResult": "True"
}
]
```

> 💡 If you are calling the login endpoint each time you make a call for instance or the ticket was generated within 5 hours then there's no need to call this endpoint

Step 2: Consumer Match or Commercial Match

> 💡 Consumer Match is for Individuals while Commercial Match is for Businesses

Body Params for Consumer Match

Request sample 1: Consumer Match (Using BVN)

```
{
"DataTicket":"eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJzdWJzY3JpYmVyaWQiOiIyNyIsInN1Ym5hbWUiOiJGaXJzdENlbnRyYWwgRGF0YSIsInVzZX

"EnquiryReason":"Test",
"ConsumerName":"",
"DateOfBirth":"",
"Identification":"22471069115",
"Accountno":"",
"ProductID":"45"
}
```

Request sample 2: Consumer Match (Using Name + Date of Birth)

```
{
"DataTicket":"eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJzdWJzY3JpYmVyaWQiOiIyNyIsInN1Ym5hbWUiOiJGaXJzdENlbnRyYWwgRGF0YSIsInVzZX
JuYW1lIjoiai5pbWFmaWRvbiIsInN5c3RlbXVzZXJpZCI6IjkxODEyIiwibmJmIjoxNjU2Nzg0OTY1LCJleHAiOjE2NTY3OTU3NjUsImlhdCI6MTY1Njc4NDk2NX
0.ipmyPB5mpuEBR9wkPvgF58EXgArF7X1DUEsjacKGuS0",
"EnquiryReason":"Test Run",
"ConsumerName":"",
"DateOfBirth":"12/12/1950",
"Identification":"",
"Accountno":"",
```

```
"ProductID":"45"
}
```

Response: Consumer Match

```
[
{
"MatchedConsumer": [
{
"MatchingEngineID": "178456248",
"EnquiryID": "39059388",
"ConsumerID": "2599049",
"Reference": "C39059388-2599049",
"IDNo": null,
"PassportNo": null,
"PencomIDno": null,
"VoterID": null,

"BirthDate": "1977-01-26",
"GenderInd": null,
"AccountNo": null,
"TelePhoneNumber": "",
"MatchingRate": "90"
}
]
}
]
```

💡 When searching with BVN, pass the Name, DOB and AccountNo parameter as an empty string. When searching with Name & DOB, pass the BVN and AccountNo has an empty string. Although BVN is recommended because of its uniqueness, using Name and Date of birth would return a larger response than BVN as it is more available.
You can also search with telephone number, or driver's license number by passing it as identification.
